

Vehicle Valuation Review

2024 Synthetic Sedan SEL

VIN: SYNTHETICLOSS0001
Mileage: 50,000 miles
Date of loss: 2026-05-19
Insurer: Synthetic Insurance
Claim: SYNTHETIC-CLAIM-001
Issued: 2026-08-26

Valuation comparison

Insurer vehicle valuation reviewed	\$20,000.00
Selected comparable advertised-price range	\$21,800.00 - \$22,600.00
Median advertised price	\$22,200.00

Advertised prices are asking amounts, not verified completed sales or an independently adjusted vehicle value.
Advertised-price median minus insurer valuation: \$2,200.00 (11.00%). This comparison is not an established underpayment.

Reason for review

The insurer's vehicle valuation is below the advertised price of every vehicle in the selected primary comparison set.

Please review the documented listings alongside the insurer's vehicle valuation and explain any material adjustments or differences that affect your conclusion.

Customer-reported context (not independently inspected): Condition: Good pre-loss condition; Equipment: Synthetic Safety Package.

No independent dollar adjustments have been made for mileage, condition, equipment or location. No physical inspection was performed. This is an evidence review, not an independent appraisal or a determination of the settlement owed.

Comparable evidence

C1-C18 is the complete selected primary set underlying the headline statistics. Recorded as active on the loss date, 2026-05-19.

Source: synthetic-historical. Selection is based on vehicle comparability, not price. No independent dollar adjustments were applied.

Source notes

Insurer source: valuation-report.pdf. Report provider: CCC. Page-specific source citations were not retained.

The claim reference is extracted from the accepted insurer report.

The recorded current-market search radius was 250 miles.

Listing identifiers and available source links are provided with the comparable records. A live listing may have changed or disappeared. It may not reproduce its historical price. Historical activity is verified at calendar-date level, not the exact time of loss.

The statistics use the complete selected set, rather than every listing discovered. Provider records may not capture the entire market. Certification, warranty and optional accessory benefits have not been independently valued.
