

Vehicle Valuation Review

2024 Synthetic Sedan SEL

VIN: SYNTHETICLOSS0001
Mileage: 50,000 miles
Date of loss: 2026-05-19
Insurer: Synthetic Insurance
Claim: SYNTHETIC-CLAIM-001
Issued: 2026-08-26

Valuation comparison

Insurer vehicle valuation reviewed	\$20,000.00
Selected comparable advertised-price range	\$21,800.00 - \$22,600.00
Median advertised price	\$22,200.00

Advertised prices are asking amounts, not verified completed sales or an independently adjusted vehicle value.
Advertised-price median minus insurer valuation: \$2,200.00 (11.00%). This comparison is not an established underpayment.

Reason for review

The insurer's vehicle valuation is below the advertised price of every vehicle in the selected primary comparison set.

The comparison uses current asking prices; sufficient verified loss-date market evidence was not available.

The available comparable evidence is limited; it does not establish a precise vehicle value.

Please review the documented listings alongside the insurer's vehicle valuation and explain any material adjustments or differences that affect your conclusion.

Customer-reported context (not independently inspected): Condition: Good pre-loss condition; Equipment: Synthetic Safety Package.

No independent dollar adjustments have been made for mileage, condition, equipment or location. No physical inspection was performed. This is an evidence review, not an independent appraisal or a determination of the settlement owed.

Comparable evidence

C1-C5 is the complete selected primary set underlying the headline statistics. Current-market observations dated 2026-08-10; not verified loss-date prices.

Source: synthetic-current. Selection is based on vehicle comparability, not price. No independent dollar adjustments were applied.
