

Vehicle Valuation Review

2024 Hyundai Elantra SEL

VIN: KMHLM4AG0RU900002

Mileage: 50,000 miles

Date of loss: 2026-08-26

Insurer: Example Insurance

Claim: FICTIONAL-expansion

Issued: 2026-09-09

Valuation comparison

Insurer vehicle valuation reviewed	\$17,000.00
Selected comparable advertised-price range	\$20,000.00 - \$20,600.00
Median advertised price	\$20,200.00

Advertised prices are asking amounts, not verified completed sales or an independently adjusted vehicle value.

Advertised-price median minus insurer valuation: \$3,200.00 (18.82%). This comparison is not an established underpayment.

Reason for review

The insurer's vehicle valuation is below the advertised price of every vehicle in the selected primary comparison set.

Please review the documented listings alongside the insurer's vehicle valuation and explain any material adjustments or differences that affect your conclusion.

No independent dollar adjustments have been made for mileage, condition, equipment or location. No physical inspection was performed. This is an evidence review, not an independent appraisal or a determination of the settlement owed.

Comparable evidence

C1-C9 is the complete selected primary set underlying the headline statistics. Recorded as active on the loss date, 2026-08-26.

Source: marketcheck. Selection is based on vehicle comparability, not price. No independent dollar adjustments were applied.

Sources and qualifications

Current-market context

Observed 2026-09-09. These records are separate from the primary comparison and are not combined with its statistics.

C1: \$20,000.00; C2: \$20,100.00. Source: marketcheck.

These are later observations of vehicles already identified above, not additional independent vehicles.

No insurer comparable rows were available in the accepted evidence; the insurer's comparable adjustments could not be reviewed.

Source notes

Insurer source: expansion.pdf. Report provider: CCC. Page-specific source citations were not retained.

The claim reference is extracted from the accepted insurer report.

The recorded search used 2 search areas, with 100-mile radii around those search centers.

Listing identifiers and available source links are provided with the comparable records. A live listing may have changed or disappeared. It may not reproduce its historical price. Historical activity is verified at calendar-date level, not the exact time of loss.

The statistics use the complete selected set, rather than every listing discovered. Provider records may not capture the entire market. Certification, warranty and optional accessory benefits have not been independently valued.
